- In the USA Sector, the average block market[3] per pound of cheese decreased by US$0.54 and the average butter market[4] price per pound decreased by US$0.25, compared to the same period last fiscal year, decreasing revenues. Higher cheese sales volumes, decreased ingredients costs, better efficiencies, as well as favorable market factors[5] positively impacted EBITDA.
- The Canada Sector EBITDA decreased due to a decline in the dairy ingredients market, increased warehousing and logistical costs, higher administrative expenses, as well as the reduction of EBITDA associated with the disposition of the Bakery Division in fiscal 2015.
- The International Sector EBITDA was negatively impacted by a drop in selling prices during the quarter without a similar decline in milk cost as raw material, also resulting in a $13.0 million inventory write-down.
- On May 25, 2015, the Company completed the acquisition of the everyday cheese business of Lion-Dairy & Drinks Pty Ltd (EDC Acquisition) in Australia, announced in the fourth quarter of fiscal 2015.
- The fluctuation of the Canadian dollar versus foreign currencies during the quarter had a positive impact on revenues and EBITDA, as compared to the same quarter last fiscal year.
- The Board of Directors reviewed the dividend policy and increased the quarterly dividend from $0.13 per share to $0.135 per share, representing a 3.8% increase. The quarterly dividend will be payable on September 14, 2015 to common shareholders of record on September 3, 2015.

[1] Adjusted net earnings, adjusted EBITDA and adjusted earnings per share (basic and diluted) are non-IFRS measures. Refer to "Measurement of Results not in Accordance with International Financial Reporting Standards" included in this report for the definition of these terms.

[2] Per share data prior to September 30, 2014 has been adjusted for a stock dividend of one common share per each issued and outstanding common share, which was paid on September 29, 2014 and had the same effect as a two-for-one stock split of the Company's outstanding common shares.

[3] "Average block market" is the average daily price of a 40 pound block of cheddar traded on the Chicago Mercantile Exchange (CME), used as the base price for cheese.

[4] "Average butter market" is the average daily price for Grade AA Butter traded on the CME, used as base price for butter.

[5] Market factors include the average block market per pound of cheese and its effect on the absorption of fixed costs and on the realization of inventories, the effect of the relationship between the average block market per pound of cheese and the cost of milk as raw material, the market pricing impact related to sales of dairy ingredients, as well as the impact of the average butter market price related to dairy food product sales.

Management's Discussion and Analysis

The purpose of this management report is to provide investors with a greater understanding of the Company's business, performance and strategy, as well as to analyze the results and the financial position of the Company for the quarter ended June 30, 2015. It should be read while referring to our condensed interim consolidated financial statements and accompanying notes for the three-month periods ended June 30, 2015 and 2014. The Company's condensed interim consolidated financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting as issued by the International Accounting Standards Board. All dollar amounts are in Canadian dollars, unless otherwise indicated. This report takes into account material elements between June 30, 2015 and August 4, 2015, the date on which this report was approved by the Company's Board of Directors. Additional information about the Company, including its Annual Report and Annual Information Form for the year ended March 31, 2015, can be obtained on SEDAR at www.sedar.com.

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements within the meaning of securities laws. These statements are based, among other things, on Saputo's assumptions, expectations, estimates, objectives, plans and intentions as of the date hereof regarding projected revenues and expenses, the economic, industry, competitive and regulatory environments in which the Company operates or which could affect its activities, its ability to attract and retain customers and consumers, as well as the availability and cost of milk and other raw materials and energy supplies, its operating costs and the pricing of its finished products on the various markets in which it carries on business.

These forward-looking statements include, among others, statements with respect to the Company's short and medium term objectives, outlook, business projects and strategies to achieve those objectives, as well as statements with respect to the Company's beliefs, plans, objectives and expectations. The words "may", "should", "will", "would", "believe", "plan", "expect", "intend", "anticipate", "estimate", "foresee", "objective", "continue", "propose" or "target", or the negative of these terms or variations of them, the use of conditional tense or words and expressions of similar nature, are intended to identify forward-looking statements.

By their nature, forward-looking statements are subject to a number of inherent risks and uncertainties. Actual results could differ materially from the conclusion, forecast or projection stated in such forward-looking statements. As a result, the Company cannot guarantee that any forward-looking statements will materialize. Assumptions, expectations and estimates made in the preparation of forward-looking statements and risks that could cause actual results to differ materially from current expectations are discussed in the Company's materials filed with the Canadian securities regulatory authorities from time to time, including the "Risks and Uncertainties" section of the Management's Discussion and Analysis included in the Company's 2015 Annual Report.

Forward-looking statements are based on Management's current estimates, expectations and assumptions, which Management believes are reasonable as of the date hereof, and, accordingly, are subject to changes after such date. You should not place undue importance on forward-looking statements and should not rely upon this information as of any other date.

Except as required under applicable securities legislation, Saputo does not undertake to update or revise these forward-looking statements, whether written or verbal, that may be made from time to time by itself or on its behalf, whether as a result of new information, future events or otherwise.

MEASUREMENT OF RESULTS NOT IN ACCORDANCE WITH INTERNATIONAL FINANCIAL REPORTING STANDARDS

In certain instances, the Company makes references to terms in evaluating financial performance measures, such as EBITDA, adjusted EBITDA, adjusted net earnings and adjusted earnings per share, that hold no standardized meaning under IFRS. These non-IFRS measurements are therefore not likely to be comparable to similarly titled or described measures in use by other publicly traded companies nor do they indicate that excluded items are non-recurring. The Company uses earnings before interest, income taxes, depreciation and amortization (EBITDA) as a performance measure as it is a common industry measure and reflects the ongoing profitability of the Company's consolidated business operations.

Adjusted EBITDA represents earnings before interest, income taxes, depreciation, amortization, gain on disposal of a business, acquisition, restructuring and other costs. Adjusted net earnings is defined by the Company as net earnings prior to the inclusion of a gain on disposal of a business, acquisition, restructuring and other costs, net of applicable income taxes, if any. Adjusted earnings per share is defined as adjusted net earnings attributable to shareholders of Saputo Inc. per basic and diluted common share. The most comparable IFRS financial measures to the ones used by the Company are earnings before income taxes, as well as net earnings and earnings per share (basic and diluted).

Adjusted EBITDA, adjusted net earnings and adjusted earnings per share, as used by Management, provide greater precision and comparability with regards to the Company's ongoing operation. They also provide readers with a representation of the activities considered of greater relevance to the Company's financial performance through the inclusion of additional financial information that can be used to identify trends or additional disclosures that provide information into the manner in which the Company operated. Non-IFRS measures also provide greater comparability to the Company's prior year results.

The definitions provided above are used in the context of the results and activities for the three-month period ended June 30, 2015. They are subject to change based on future transactions and as deemed necessary by Management in order to provide a better understanding and comparability of future results and activities of the Company.

A reconciliation of earnings before income taxes, net earnings and earnings per share to adjusted EBITDA, adjusted net earnings and adjusted earnings per share for the three-month periods in which Management has presented these adjusted measures is provided below.

OPERATING RESULTS

Consolidated revenues for the quarter ended June 30, 2015 amounted to $2.564 billion, a decrease of $56.4 million or 2.2% in comparison to $2.621 billion for the corresponding quarter last fiscal year. This decrease is partially due to the continued decline in international cheese and dairy ingredient prices in the International Sector. A lower average block market per pound of cheese, as well as a lower average butter market price in the USA Sector as compared to the corresponding quarter last fiscal year, negatively affected revenues. In addition, the disposal of the Bakery Division, in the Canada Sector in the fourth quarter of fiscal 2015, resulted in decreased revenues as compared to the same quarter last fiscal year. Higher sales volumes in all sectors partially offset these decreases. The fluctuation of the Canadian dollar versus foreign currencies increased revenues by approximately $177 million.

Consolidated adjusted EBITDA for the first quarter of fiscal 2016 amounted to $258.9 million, a decrease of $10.0 million or 3.7% in comparison to $268.9 million for the same quarter last fiscal year. In the USA Sector, increased sales volumes and operational efficiencies, a better product mix, as well as favorable market factors positively impacted EBITDA. In the International Sector, EBITDA decreased due to lower selling prices in export markets without a similar decline in the cost of milk as raw material. In the Canada Sector, EBITDA was unfavorably impacted by a decline in the dairy ingredients market, increased warehousing and logistical costs and higher administrative expenses. Also, the disposition of the Bakery Division in fiscal 2015 negatively impacted EBITDA. The fluctuation of the Canadian dollar had a favourable impact on EBITDA, as compared to the same period last fiscal year.

OTHER CONSOLIDATED RESULT ITEMS

Depreciation and amortization for the first quarter of fiscal 2016 totalled $45.4 million, an increase of $6.5 million, as compared to $38.9 million for the corresponding period last fiscal year. This increase is mainly attributable to fluctuations in foreign exchange rates between the Canadian dollar and foreign currencies, as well as additions to property plant and equipment, increasing the depreciable base.

Acquisition costs amounted to $0.6 million for the quarter ended June 30, 2015 related to the EDC Acquisition.

Net interest expense for the three-month period ended June 30, 2015 decreased by $2.9 million, in comparison to the same period last fiscal year. This decrease is mainly attributed to a lower level of debt.

Income taxes for the first quarter of fiscal 2016 totalled $59.6 million, reflecting an effective tax rate of 30.4% compared to 30.9% for the same quarter last fiscal year. The income tax rate varies and could increase or decrease based on the amount and source of taxable income, amendments to tax legislations and income tax rates, changes in assumptions, as well as estimates used for tax assets and liabilities by the Company and its affiliates.

Net earnings totalled $136.4 million for the quarter ended June 30, 2015, compared to $145.3 million for the same quarter last fiscal year.

Capital Management

The Company's capital strategy requires a well-balanced financing structure in order to maintain flexibility to implement growth initiatives, while allowing it to pursue disciplined capital investments and maximize shareholder value.

The Company targets a long-term leverage of approximately 2.0 times net debt[1] to Adjusted EBITDA. From time to time, the Company may deviate from its long-term leverage target to pursue acquisitions and other strategic opportunities. Should such a scenario arise, the Company expects to deleverage over a reasonable period of time in order to seek to maintain its investment grade ratings.

FOLLOW-UP ON CERTAIN SPECIFIC ITEMS OF THE ANALYSIS

For an analysis of guarantees, related party transactions, accounting standards, critical accounting policies and use of accounting estimates, future standards, new accounting standards adopted, risks and uncertainties, as well as a sensitivity analysis of interest rate and US currency fluctuations, the discussion provided in the Company's 2015 Annual Report can be consulted (pages 18 to 24 of the Management's Discussion and Analysis).

DISCLOSURE CONTROLS AND PROCEDURES

The Chief Executive Officer (CEO) and the Chief Financial Officer (CFO) are responsible for establishing and maintaining disclosure controls and procedures. The Company's disclosure controls and procedures are designed to provide reasonable assurance that material information relating to the Company is made known to Management in a timely manner to allow the information required to be disclosed under securities legislation to be recorded, processed, summarized and reported within the time periods specified in securities legislation.

INTERNAL CONTROLS OVER FINANCIAL REPORTING

The CEO and the CFO are responsible for establishing and maintaining internal control over financial reporting. The Company's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS.

The CEO and the CFO, along with Management, have concluded, after having conducted an evaluation and to the best of their knowledge, that, as at June 30, 2015, no change in the Company's internal control over financial reporting occurred that could have materially affected or is reasonably likely to materially affect the Company's internal control over financial reporting.

EBITDA	**98.1**	82.3	102.1	106.8	113.3

The Canada Sector consists of the Dairy Division (Canada). In fiscal 2015, the Sector included both the Dairy Division (Canada) and the Bakery Division.

Revenues

Revenues for the Canada Sector totalled $917.5 million for the quarter ended June 30, 2015, a decrease of $31.6 million, as compared to $949.1 million for the same period last fiscal year. The decrease in revenues was mainly related to the disposal of the Bakery Division in the fourth quarter of fiscal 2015. In the Dairy Division (Canada), revenues increased due to higher sales volumes as compared to the same quarter last fiscal year.

EBITDA

For the quarter ended June 30, 2015, EBITDA totalled $98.1 million, a decrease of $15.2 million or 13.4%, as compared to $113.3 million for the corresponding quarter last fiscal year. A continued decline in the international dairy ingredients market as well as increased warehousing and logistical costs decreased EBITDA as compared to the same quarter last fiscal year. The sector benefitted from additional volumes in the Dairy Division (Canada) as compared to the same quarter last fiscal year. Increased administrative expenses negatively impacted EBITDA as compared to the same quarter last fiscal year. Also, the disposition of the Bakery Division in the fourth quarter of last fiscal year negatively affected EBITDA of the current quarter by approximately $4.0 million.

The USA Sector consists of the Cheese Division (USA) and the Dairy Foods Division (USA).

Revenues

Revenues for the USA Sector totalled $1.303 billion for the quarter ended June 30, 2015, an increase of $11.4 million, as compared to $1.292 billion for the corresponding quarter last fiscal year. A lower average block market per pound of cheese of US$1.62 in the first quarter of fiscal 2015, as compared to US$2.16 for the corresponding quarter last fiscal year, and an average butter market price of US$1.88, as compared to US$2.12 decreased revenues by approximately $207 million. Higher sales volumes in both US divisions increased revenues. The weakening of the Canadian dollar versus the US dollar increased revenues by approximately $164 million.

EBITDA

EBITDA totalled $171.7 million for the quarter ended June 30, 2015, an increase of $53.9 million or 45.8% in comparison to $117.8 million for the same quarter last fiscal year. In the Cheese Division (USA), higher sales volumes, a decrease in ingredients costs as well as better efficiencies increased EBITDA as compared to the same quarter last fiscal year. The Dairy Foods Division (USA) benefitted from increased sales volumes, a favorable product mix and decreased operational costs attributed to better cost control. The sector also benefitted from procurement efficiencies. During the quarter, the block price opened at US$1.58 and closed at US$1.62, an increase of US$0.04, compared to opening at US$2.39 and closing at US$2.00, a decrease of US$0.39 for the same period last fiscal year. A lower average block market per pound of cheese in the first quarter as compared to the same quarter last fiscal year, had an unfavorable impact on the absorption of fixed costs. This net difference in the quarter versus the same quarter last fiscal year had a favourable impact on the realization of inventories. Also, the relationship between the average block market per pound of cheese and the cost of milk as raw material was favourable in comparison to the same period last fiscal year. The continued decline in the dairy ingredients market had a negative effect on EBITDA. These combined market factors, including the favorable margins associated with the lower commodity prices in the Dairy Foods Division (USA), increased EBITDA by approximately $3 million, as compared to the same quarter last fiscal year. The weakening of the Canadian dollar versus the US dollar had a positive impact on EBITDA of approximately $15 million.

The International Sector consists of the Dairy Division (Argentina), the Dairy Division (Australia) and the Dairy Ingredients Division. The Dairy Ingredients Division includes national and export ingredients sales from the North American divisions, as well as cheese exports from these same divisions.

Revenues

Revenues for the International Sector totalled $343.6 million for the quarter, a decrease of $36.2 million compared to the same quarter last fiscal year. This decrease is due to the decline of the international cheese and dairy ingredient market prices. In the Dairy Division (Argentina), higher sales volumes in both export and domestic markets increased revenues, offsetting the impact on revenues of lower selling prices in the international market, as compared to the same quarter last fiscal year. Revenues of the Dairy Ingredients Division decreased as compared to the corresponding quarter last fiscal year due to the lower selling prices in the international markets, partially offset by higher sales volumes. Revenues of the Dairy Division (Australia) were also negatively affected by the decline in the international cheese and dairy ingredient market prices, while sales volumes remained relatively stable. The EDC Acquisition contributed 5 weeks of revenues since May 25, 2015, which favorably impacted revenues. The fluctuation of the Canadian dollar versus the foreign currencies used in the International Sector positively impacted revenues by approximately $8 million, as compared to the same quarter last fiscal year.

EBITDA

EBITDA for the International Sector amounted to $(10.9) million, a $48.7 million decrease compared to the same quarter last fiscal year. In the Dairy Division (Argentina), the decline of international cheese and dairy ingredient market prices and the fact that the cost of milk as raw material did not follow this decrease as compared to last fiscal year negatively affected EBITDA. Similarly, the decrease in market selling prices and the high cost of milk as raw material negatively affected EBITDA of the Dairy Division (Australia). As a result of the decrease in market selling prices, inventory was written down by $13 million, decreasing EBITDA as compared to the same quarter last fiscal year.

OUTLOOK

In Canada, the competitive market, which existed in fiscal 2015 and through the first quarter of fiscal 2016, is anticipated to continue throughout fiscal 2016, and remains a Company challenge. Additionally, dairy ingredient markets have continued to decline and are expected to remain low during fiscal 2016. In order to mitigate downward margin pressures, the Dairy Division (Canada) will seek to optimize its operating platform and continue to evaluate its cost structures. While focus remains on strengthening cost control, the division intends to leverage its operational flexibility to enhance profitability.

The Scotsburn Acquisition in fiscal 2015 enables the Dairy Division (Canada) to increase its presence in Atlantic Canada. The Division is continually evaluating opportunities and synergies, and focusing on the improvement and expansion of its product offerings to all customers.

Innovation has always been a priority, enabling the Company to offer products that meet consumer needs. Accordingly, additional resources have been allocated to product innovation, allowing us to continue to forge and secure long-term relationships with both customers and consumers.

In the USA Sector, depressed selling prices in the international dairy ingredient market are expected to put downward pressure on margins and the Company will continue to focus on controlling costs and increasing efficiencies in order to mitigate their impact on EBITDA. International dairy ingredient markets have declined since the last half of fiscal 2015, into fiscal 2016, and these prices are anticipated to remain low throughout fiscal 2016.

Following a hearing held on June 3, 2015, the California Department of Food & Agriculture (CDFA) has decided to amend the Class 4b pricing formula to increase the dry whey factor value for a period of one year from August 1, 2015 through July 31, 2016. The whey factor will continue to vary in accordance with changes in the whey market prices, based on a new sliding scale. Had the revised formula been in effect since the beginning of the fiscal year, the resulting negative impact on EBITDA for the quarter would have totalled approximately $10 million based on the actual whey market prices during the quarter. The Sector will take appropriate decisions to mitigate its impact on profitability.

The Company will continue to focus on the implementation of the Company's business model into the acquired Dairy Foods Division (USA), including its philosophy of being a low-cost processor. The sector will continue to focus on possible synergies stemming from the Divisions' national manufacturing and distribution footprint. In addition, the sector intends to capitalize on investments made to its existing network to provide new capabilities enabling future growth.

Additionally, in fiscal 2016, the Sector will work to capture additional volumes in the Cheese Division (USA) and should benefit from the effort of the International Sector towards growing the export sales market. The Cheese Division (USA) plans to continue to gain distribution and market share for its premium lines of snack cheeses and flavored blue cheese offerings.

The USA Sector will continue to evaluate opportunities to improve efficiencies in both manufacturing and distribution facilities across the US. The Sector will also continue to monitor fluctuations in dairy markets and take appropriate decisions to mitigate the impact on its operations.

The International Sector will continue to pursue sales volume growth in existing markets, as well as develop additional international markets from its operations in Argentina for which capacity has been increased in the last few years. Also, we will pursue growth of cheese export sales volumes out of the Cheese Division (USA) to the extent milk pricing is competitive with world prices. The inclusion of the Dairy Division (Australia) has given the International Sector an additional platform, which will contribute to the long-term growth of the sector as a dairy player on a global scale. We anticipate that the EDC Acquisition will bring new opportunities to the sector. The sector will continue to evaluate overall activities in an effort to improve efficiencies.

International cheese and dairy ingredient markets have declined through the first quarter of fiscal 2016 and these prices are anticipated to remain low throughout fiscal 2016. These depressed selling prices are expected to put downward pressure on the sector's margins, as such, we will continue to focus on controlling costs and increasing efficiencies in order to mitigate their impact on EBITDA.

Our goal remains to continue to improve overall efficiencies in all sectors and pursue growth internally and through acquisitions.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(Tabular amounts are in thousands of CDN dollars, except information on options and shares)
(unaudited)

NOTE 1 CORPORATE INFORMATION

Saputo Inc. (the Company) is a publicly traded company incorporated and domiciled in Canada. The Company's shares are listed on the Toronto Stock Exchange under the symbol "SAP." The Company produces, markets and distributes a wide array of dairy products from Canada, the United States, Argentina and Australia. The address of the Company's head office is 6869 Metropolitain Blvd. East, Montréal, Québec, Canada, H1P 1X8. The condensed interim consolidated financial statements (financial statements) of the Company for the period ended June 30, 2015 comprise the financial results of the Company and its subsidiaries.

The financial statements for the period ended June 30, 2015 have been authorized for issuance by the Board of Directors on August 4, 2015.

NOTE 2 BASIS OF PRESENTATION

The financial statements of the Company have been prepared in accordance with IAS 34, Interim Financial Reporting, as issued by the International Accounting Standards Board (IASB). Accordingly, certain disclosure requirements that are necessary in the preparation of an annual report in compliance with International Financial Reporting Standards (IFRS) have been omitted or condensed. On August 5, 2014 the Board of Directors declared a stock dividend of one common share per each issued and outstanding common share, which had the same effect as a two-for-one stock split of the Company's outstanding common shares, paid on September 29, 2014 to shareholders of record as of the close of business on September 19, 2014. The Company's shares began trading on an ex-dividend basis (split basis) on September 30, 2014 and references to common shares, options and related information made herein have been retroactively adjusted to reflect the stock dividend.

NOTE 3 SIGNIFICANT ACCOUNTING POLICIES

The accounting policies and methods of computation applied in these condensed interim consolidated financial statements are the same as those applied by the Company in its consolidated financial statements as at and for the year ended March 31, 2015 except for the impact of the adoption of the new standards, interpretations and amendments described below.

These condensed interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements.

EFFECT OF NEW ACCOUNTING STANDARDS, INTERPRETATIONS AND AMENDMENTS NOT YET IMPLEMENTED

The IASB continues to make revisions as part of its improvements project. Below is a summary of the relevant standards affected and a discussion of the amendments.

IFRS 9, Financial Instruments

The IASB issued IFRS 9 in November 2009 with the long-term goal of replacing IAS 39, Financial Instruments: Recognition and Measurement. Several amendments have been made to this standard since that date including amendments made in July and August 2014 relating to the classification of financial assets and the use of a single impairment model for all financial instruments.

These amendments, along with the adoption of the standard, are effective for annual reporting periods beginning on or after January 1, 2018. Management is currently evaluating the impact of the adoption of this standard, including amendments.

NOTE 3 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

IFRS 10, Consolidated Financial Statements & IAS 28, Investments in Associates

The IASB has issued a narrow-scope amendment to IFRS 10, Consolidated Financial Statements and IAS 28, Investments in Associates and Joint Ventures to address an acknowledged inconsistency between the requirements in IFRS 10 and those in IAS 28 when dealing with the sale or contribution of assets between an investor and its associate or joint venture. The new standards now require that a full gain or loss is recognized when a transaction involves a business and that a partial gain or loss is recognized when a transaction involves assets that do not constitute a business.

This amendment is effective for annual reporting periods beginning on or after January 1, 2016 and is not expected to impact the Company's financial statements.

IFRS 15, Revenue from Contracts with Customers

The IASB issued IFRS 15, Revenue from Contracts with Customers with its goal to provide a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. This new standard will supersede current revenue recognition guidance in IAS 18, Revenue, IAS 11, Construction Contracts and IFRIC 13, Customer Loyalty Programmes.

The objective of this standard is to provide a five-step approach to revenue recognition that includes identifying contracts with customers, identifying performance obligations, determining transaction prices, allocating transaction prices to performance obligations and recognizing revenue when performance obligations are satisfied. In certain instances, transfer of assets that are not related to the entity's ordinary activities will also be required to follow some of the recognition and measurement requirements of the new model. The standard also expands current disclosure requirements.

This standard is effective for annual reporting periods beginning on or after January 1, 2018. Management is currently assessing the impact of the adoption of this standard.

IAS 19, Employee Benefits

IAS 19 has been amended to clarify that in determining the discount rate for post-employment benefit obligations, the currency of the liability is of importance and not the country in which it arises. Furthermore, where there is no deep market in high-quality corporate bonds in that currency, government bonds in the relevant currency should be used.

This amendment is effective for annual reporting periods beginning on or after January 1, 2016. Management is currently evaluating the impact of the adoption of this amendment but is not expecting it to have a significant impact on the Company's financial statements.

EFFECT OF NEW ACCOUNTING STANDARDS, INTERPRETATIONS AND AMENDMENTS ADOPTED DURING THE PERIOD

The following standards were adopted by the Company on April 1, 2015:

IFRS 2, Share-based Payment

The IASB has amended the definitions of market and vesting conditions and added definitions for performance and service conditions. Vesting conditions are now defined as either service conditions or performance conditions. The amendments also clarify certain other requirements for performance, service, market and non-vesting conditions.

This amendment did not impact the Company's financial statements for the three-month period ending June 30, 2015.

IFRS 3, Business Combinations

The IASB amended IFRS 3 to clarify that contingent consideration in a business combination, whether an asset or liability, should continue to be measured at fair value at each reporting date regardless of whether the contingent consideration is considered a financial instrument within the scope of IFRS 9 or IAS 39 and regardless of whether it is considered a non-financial asset or liability (changes in fair value shall be included in net earnings).

This amendment did not impact the Company's financial statements for the three-month period ending June 30, 2015.

NOTE 3 SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

IFRS 8, Operating Segments

The IASB amended IFRS 8 to require an entity to disclose the judgements in applying the aggregation criteria. The standard now requires a brief description of the operating segments that have been aggregated in the present manner and the economic indicators that have been assessed in determining that the aggregated operating segments share similar economic characteristics.

The adoption of this amendment has not materially impacted the Company's financial statements with the exception of additional disclosures found in Note 11.

IFRS 8 has also been amended to clarify that an entity needs to present a reconciliation between the total reporting segment's assets to the entities' total assets only if this information is usually provided to the chief operating decision maker.

This amendment did not impact the Company's financial statements for the three-month period ending June 30, 2015 as this information is already disclosed by the Company in its Annual Report.

IFRS 13, Fair Value

The IASB amended the basis for conclusion in IFRS 13 to clarify that the issuance of IFRS 13 (and related amendments to IAS 39, Financial Instruments: Recognition and Measurement) does not require discounting of short-term receivables and payables if they are not significant.

This amendment did not significantly impact the Company's financial statements for the three-month period ending June 30, 2015.

IAS 19, Employee Benefits

IAS 19 has been amended to clarify that employee (or third party) contributions that are independent of the number of years of service can be deducted from the service cost in the period that the service is rendered and not necessarily allocated over periods of service. Other contributions made by employees (or third parties) are to be attributed to the periods of service using the plan's contribution formula or on a straight line basis.

This amendment did not impact the Company's financial statements for the three-month period ending June 30, 2015.

IAS 24, Related Party Transactions

IAS 24 clarifies that a management entity providing key management personnel services to a reporting entity is also considered a related party of the reporting entity. Therefore the amounts paid by the reporting entity in relation to those services must also be included in the amounts disclosed in the related party transactions note. Disclosures of the components of the services provided are not required.

This amendment did not impact the Company's financial statements for the three-month period ending June 30, 2015.

IAS 40, Investment Property

The IASB amended this standard to clarify that this standard and IFRS 3, Business Combinations are not mutually exclusive and the application of both standards may be required in the event of an asset acquisition. An entity will need to determine whether the asset acquired meets the definition of investment property while also determining whether the transaction constitutes a business acquisition under IFRS 3.

This amendment did not impact the Company's financial statements for the three-month period ending June 30, 2015.

NOTE 11 SEGMENTED INFORMATION

The Company reports under three geographic sectors. The Canada Sector consists of Dairy Division (Canada). The USA Sector aggregates the Cheese Division (USA) and the Dairy Foods Division (USA). Finally, the International Sector combines the Dairy Division (Argentina), the Dairy Division (Australia) and the Dairy Ingredients Division. The Dairy Ingredients Division includes national and export ingredients sales from the North American divisions, as well as cheese exports from these same divisions.

Management has aggregated the Cheese Division (USA) and the Dairy Foods Division (USA) due to similarities in long-term average returns and correlated market factors driving pricing strategies that affect the operations of both divisions. The divisions within the International Sector have been combined due to similarities in global market factors and production processes.

NOTE 12 BUSINESS ACQUISITION

Everyday Cheese Business of Lion-Dairy & Drinks PTY LTD

The Company announced, on May 25, 2015, that Warrnambool Cheese and Butter Factory Company Holdings Limited (WCB) (Dairy Division (Australia)) completed the transaction announced on March 2, 2015 and acquired the everyday cheese business (EDC Business) of Lion-Dairy & Drinks Pty Ltd (Lion) based in Victoria, Australia.

The purchase price of $132,440,000 (A$137,500,000), on a debt-free basis, included $102,580,000 which represented the value of the inventory net of a minimal amount of assumed liabilities, subject to closing adjustments, and was financed through new bank term loans.

The EDC Business' operations include cutting and wrapping, distribution, sales & marketing and intellectual property associated with the *COON, Cracker Barrel* (trademark used under licence), *Mil Lel* and *Fred Walker* brands. The EDC Business generates annual sales of approximately $156,000,000 (A$160,000,000) and employs approximately 170 people. The cut and wrap operations of the EDC Business are located in a building owned by WCB, which is adjacent to WCB's cheese manufacturing facility at Allansford.

The transaction will enable WCB to increase its presence in consumer branded everyday cheese products segment in Australia with strong market positions in this segment.
